Subject: Final Report of the Project - The Role and Identity of the  
Regulator: An International Comparative Study

---

We are pleased to provide you with a copy of the final report of the project titled ***The Role and Identity of the Regulator: An International Comparative Study***. The result of a two-year project, this is the largest international mapping exercise of nursing jurisdictions ever undertaken. It provides a global resource which compares and contrasts the roles and powers of regulators in 172 geographical jurisdictions around the world. Contact information sheets have also been developed. The data will facilitate dialogue between jurisdictions in managing the risk associated with increasing nurse migration. The report is available on the ICN website: [http://www.icn.ch/Role\\_Identity\\_Regulator.pdf](http://www.icn.ch/Role_Identity_Regulator.pdf)
