

To: Presidents / Executive Directors / General Secretaries of  
ICN member Associations

From: Amy Coenen, ICNP® Programme Director

Date: March 2009

Subject: **International Classification for Nursing Practice (ICNP®)  
Catalogue: Palliative Care for Dignified Dying**

---

We are pleased to provide you with a copy of the ICNP® catalogue, *Palliative Care for Dignified Dying*. ICNP® catalogues are subsets of ICNP® for health conditions, practice specialties, care settings, or nursing phenomena. ICNP® catalogues fill a practical need in building health information systems with all the benefits of being part of a unified nursing language system. The catalogues are a readily accessible reference for nurses in their particular care setting or specialty. The documentation of nursing care using ICNP® will enhance safety and quality of care and will provide systematic, retrievable data about healthcare worldwide.

Thank you for your interest and support for this important ICN initiative. Your substantive contributions and ongoing support of the ICNP® is valuable to ICN.

For more information on ICNP® see: [www.icn.ch/icnp.htm](http://www.icn.ch/icnp.htm).

Please contact the ICNP® Programme Director, Amy Coenen, at [coenena@uwm.edu](mailto:coenena@uwm.edu) with questions or ideas regarding ICNP®.
